NEW HAMBURG: A HERITAGE COMMUNITY

New Hamburg is a town that celebrates its heritage – and a community where visitors can rediscover the rural roots of Ontario.

The town, founded around 1834, grew up on the banks of the Nith River, which winds its way through the community, and New Hamburg continues to enjoy riverfront parklands at every twist and turn of the Nith.

In the heart of the downtown – a Heritage Conservation District with many interesting, original buildings – the Heritage Water Wheel turns on the far bank of the river. This is the largest operating water wheel in North America; it is a symbol of the importance of the Nith River, and of the water-powered mills which were the first industries in pioneer New Hamburg.

New Hamburg loves community festivals. The town hosts about 40,000 visitors the last Saturday of May, for the Mennonite Relief Sale, a day-long

celebration including a giant Quilt Auction, traditional foods, craft sales and many other activities.

In mid-August, the Heritage core is alive with entertainment, food booths, classic cars and bargains as Sidewalk Sale Days bring a carnival atmosphere to the community, and the retailers of New Hamburg take it to the streets.

But visitors need not wait until there is a special event. New Hamburg has become known for hospitality and customer service. The town welcomes guests. Eateries ranging from country pubs and family dining to fine French cuisine are popular spots, and there is a thriving bed and breakfast industry.

You'll enjoy New Hamburg, where we celebrate our heritage, and where we eagerly invite our guests to join in the celebration.
